Subject: Feedback requested - EIOPA proposal for reporting category by products in S.14 non-life

Members' input requested

EIOPA has shared with the secretariat its **proposal for the list of product categories for template S.14** in order to reduce granularity (see [ECO-SLV-20-026](#)). EIOPA in particular would like to know whether the list is comprehensive or if it misses any major product categories

Members are invited to send their comments to prudential@insuranceeurope.eu **by Monday 24 February (cob)**.

The secretariat highlights it will keep on reiterating the industry does not support the introduction of this template, however at the same time it is deemed important to take the opportunity to provide input to EIOPA's proposal.

Proposal

EIOPA suggests the following:

- Have undertakings reporting by these macro product categories – instructions will be developed providing a more detailed definition of these categories;
- Have a flag – with instruction to report the relevant data in a separate row – when the main product is sold with an 'add-on' (eg, MTPL sold with CASCO or Road Assistance).

The table below contains the proposed product categories:

INSTRUCTIONS: When the flag is applicable fill in another row

Product category	Flag	Flag
1 MTPL	if sold with add-on coverage	If compulsory
2 Marine, aviation and transport		
3 Accident and medical insurance sold jointly		
4 Medical insurance		
5 Accident insurance		
6 Home and content insurance		
7 Building/real estate insurance		
8 Third party liability		
9 Legal expense insurance		

- 10 Income Protection
- 11 Travel insurance
- 12 Gadget insurance
- 13 Payment protection insurance
- 14 Credit Suretyship insurance
- 15 Workers' compensation insurance
- 16 Natural catastrophe insurance (fire, earthquakes flooding...)
- 17 Professional liability insurance
- 18 Other
