Subject: ESAs open hearing on the ESAP draft implementation standards

Summary

On 16 February 2024, the ESAs (EBA, EIOPA and ESMA) will hold an [open hearing](#) in the form of a webinar for the Consultation Paper on the draft implementing technical standards (ITSs) regarding the tasks of the collection bodies and the functionalities of the European Single Access Point (ESAP).

This hearing provides an opportunity for stakeholders to hear more info on the ESAs' [Consultation paper](#) and to ask questions regarding it. The [consultation](#) in question ends on 8 March.

The following topics will be addressed:

- ESAP legislative package.
- The proposals regarding the **collection bodies' tasks** in relation to:
 - Automated validations for submitted information by entities,
 - Characteristics of the Qualified Electronic Seal,
 - Application of open standard licenses,
 - Features of the data collection API,
 - Specifications for metadata,
 - Time limits for providing information to ESAP,
 - Indicative list of acceptable formats (data extractable and machine-readable).
- The proposals regarding **the ESAP's functionalities** in relation to:
 - Characteristics of the data publication API,
 - Usage of legal entity identifiers for entity identification,
 - Classification of types of information,
 - Categories for entity size,
 - Characterization of industry sectors to classify information in ESAP and enable user searches.

Registration for this open hearing will end on 12 February, 16:00 CET, it can be done by filling the response form at the end of [this](#) page.
